

Holdin' On (Volkan Uca Remix)

Pascal Junior

Hopeless, drifted, trying to slip the time away

I'll wait for you...

Hopeless, drifted, trying to slip the time away

I'll wait for you...

Hopeless, drifted, trying to slip the time away

I'll wait for you...

Hopeless, drifted, trying to slip the time away

I'll wait for you...

Oh, tell me where you're going,

If you love me then show it!

I felt dusted, but enough of this *

If you love me then show it...

If you love me then show it...

If you love me then show it...

Show it, show it, show it...

Holding on, I'll be hanging on, be hanging on, be hanging on...Hopeless, drifted, trying to slip
the time away

I'll wait for you...

Hopeless, drifted, trying to slip the time away

I'll wait for you...

Hopeless, drifted, trying to slip the time away

I'll wait for you...

Hopeless, drifted, trying to slip the time away

I'll wait for you...

Oh, tell me where you're going,

If you love me then show it!

I felt dusted, but enough of this *

If you love me then show it...

If you love me then show it...

If you love me then show it...

Show it, show it, show it...

Holding on, I'll be hanging on, be hanging on, be hanging on...
