

# Kiss Me Once

Kylie Minogue

We'll win a war  
Put me under a score  
Do you feel me?  
There's a look in your eyes  
Something's up tonight  
I can feel it. And the air is thick  
With the scent of it  
And the dam won't break  
One tear falls, tension cracks the walls  
and relief comes  
Me and you  
Baby we made it through.  
Oh, me and you  
We've got some loving to do.  
Oh, kiss me once  
And you will watch me fall.  
Oh, kiss me twice  
And I will give you my all. We'll push through  
Like too fools should do  
Do you feel me?  
Come up for air  
It's dark in here  
Do you love me?  
And the night will come  
Listen to my run  
Stand and face the pain.  
One tear falls, tension cracks the walls  
and relief comes Me and you  
Baby we made it through.  
Oh, me and you  
We've got some loving to do.  
Oh, kiss me once  
And you will watch me fall.  
Oh, kiss me twice  
And I will give you my all. Me and you  
Baby we made it through.  
Me and you  
We've got some loving to do.  
Oh, kiss me once  
And you will watch me fall.  
Oh, kiss me twice

And I will give you my all.
