

I Love NYC

Andrew W.K.

I love New York City
Oh yeah, New York City
I love New York City
Oh yeah, New York City Run it over, run them out
Knock your block or tearing your doubt
Move on corners, move around
Talk no talk, breaking you down We are a corporation, we are a company
We cut high but we're cuttin high anyway
We are your mother's father, we are your fighter friend
It never started and it won't end I love New York City
Oh yeah, New York City
I love New York City
Oh yeah, New York City
Broken faces, burnt and bent
Deal off the love song from every white man
Ride on nothin', ride your head
Got no fear, sayin' not said We are a population, we are a factory
We don't do, but we never did anyway
We are your mother's father, we are your fighter friend
You can't start what you can't end I love New York City
Oh yeah, New York City
I love New York City
Oh yeah, New York City Oh oh oh
Oh oh oh I love New York City
Oh yeah, New York City
I love New York City
Oh yeah, New York City
I love New York City
Oh yeah, New York City
I love New York City
Oh yeah, New York City
I love New York City
Oh yeah, New York City I love New York City
Oh yeah, New York City
I love New York City
Oh yeah, New York City
