

# Louder (feat. Sian Evans)

DJ Fresh

I can't control this feeling  
something's happening inside me  
our senses come alive  
the chemistry is building  
it's something that we're feeling  
there's nowhere you can hideIt's gonna get louder  
We're gonna get stronger  
We're gonna feel better  
You can't tame this energy inside  
I gotta reach higher  
I wanna burn like a fire  
Gotta move faster  
You can't tame this energy inside  
Perpetual emotion  
it's just a ripple in the ocean  
a shadow in the night  
changes we're making for the better  
we're going through together  
there's nowhere you can hideIt's more than a feeling  
we're building a dream that we've always had clear in our sights  
watch it ignite as we open our eye  
it's the one way we know to survive  
we're powerfully changing the world  
we're reclaiming our unity  
they can't divide  
they push us around  
but we're tearing it down  
and we're having the time of our life  
It's gonna get louder  
We're gonna get stronger  
We're gonna feel better  
You can't tame this energy inside  
I gotta reach higher  
I wanna burn like a fire  
Gotta move faster
