## **The Antidote**

## St. Vincent

I am the antidote I'll suck your venom out Show me where it really hurts I'll show you where it really hurtsShould've stopped for the wind Should've stopped for love Should've stopped for the wind Should've stopped for loveHoney, your clothes are soaked Mom leaves my daddy's trapes Show me where it really hurts I'll show you where it really hurts Should've stopped for the wind Should've stopped for the wind Should've stopped for love Should've stopped for love Should've stopped for love
