High

The Cure

When I see you sky as I kite
As high as I might
I can't get that high
The how you move
The way you burst the clouds

It makes me want to tryWhen I see you sticky as lips

As licky as trips I can't lick that far

But when you pout

The way you shout out loud

It makes me want to start

And when I see you happy as a girl

That swims in a works of magic show

It makes me bite my fingers through

To think I could've let you go

And when I see you

Take the same sweet steps

You used to take

I say I'll keep on holding you

My arms so tight

I'll never let you slip awayAnd when I see you kitten as a cat

Yeah as smitten as that

I can't get that small

The way you fur

The how you purr

It makes me want to paw you all

And when I see you happy as a girl

That lives in a world of make believe

It makes me pull my hair all out

To think I could've let you leave

And when I see you

Take the same sweet steps

You used to take

I know I'll keep on holding you

My arms so tight

I'll never let you

Go
