

Safety Pin

5 Seconds of Summer

Runaways, we're the long lost children(Hey!)
Running to the edge of the world
Everybody wants to throw us away
Broken boy meets broken girl
You said you tried it all before(Hey!)
And it only makes it worse
Oh but this time, maybe this time
Two wrongs make a right We'll safety pin, the pieces of our broken hearts back together
Patching up all the holes until we both feel much better
Deleted things are really dead, so now I'll say the things I never said
We'll safety pin, the pieces of our broken hearts back together(together, together)
Throwing rocks at your broken window
Only you can cure my sickness
Raise ourselves to the middle finger
Cause they all think we're twisted
Once I got a little taste
Now I'm addicted to your fix
Oh, yeah, this time, maybe this time
Two wrongs make a right We'll safety pin, the pieces of our broken hearts back together
Patching up all the holes until we both feel much better
Deleted things are really dead, so now I'll say the things I never said
We'll safety pin, the pieces of our broken hearts back together(together, together, together)No
more waiting, we can save us from falling
No more waiting, we can save us from falling
No more waiting, we can save us from falling
No more waiting, we can save us from falling
This time, maybe this time
We'll safety pin, the pieces of our broken hearts back together
Patching up all the holes until we both feel much better
Deleted things are really dead, so now I'll say the things I never said
We'll safety pin, the pieces of our broken hearts back together
No more waiting, we can save us from falling(falling)
No more waiting, we can save us from falling(falling)
No more waiting, we can save us from falling(falling)
No more waiting, we can save us from falling
