

Irreversible (feat. Anders Friden)

The Bloody Beetroots

You promised me the end of time
But our parade was fake
All that's left a bitter taste
As the castle crumbles and brakes The fear of silence
As we are drawn towards the light
A glitch in borrowed time
The irreversible fight All I think about is why
I'm not moving forward
All the tracks create a circle
My own life I disregard
The fear of silence
As we are drawn towards the light
A glitch in borrowed time
The irreversible fight
