

What You Do to Me

Dan + Shay

I drive away from your house, chasin' butterflies out
Girl, I don't know how you do it I said "Girl, you're beautiful, 'n' you already know it,
But I'll say it again and a million times after that"
You laugh and you shake your head and say "Boy, you're crazy"
Well, girl, if I'm crazy, I'm only crazy 'bout you I was lookin' right into your eyes, right then,
porch light
Flipped on and I saw your dad lookin' through the window
Hope he ain't mad Then I helped you outta my truck, through the yard to your front door
Said "Girl, am I gonna see you again?" You answered me back with a kiss
I drive away from your house, chasin' butterflies out
Girl, I don't know how you do it
Roll the radio down, say "I love you" out loud
Man, I think I'm 'bout to lose it
Ain't my thing to jump the gun,
But I called my dad and said "She's the one"
Said "Boy, better get that ring, if you really wanna change her name"
Like a merry-go-round, got my head spinnin' round and round and round That's just what you
do, do, do, do, do, do, do to me I picked you up for our second date, you're sure lookin' pretty
Sweet as an angel, here to save my soul
Mmm, yea, you get me high, you take me to heaven
And I get to shakin' when you put your lips on mine It could be the best night of my life, least
'til next time
Oh yea, gotta get this right, follow all the rules and be back by 9
Pulled up to drop you off, leanin' in to sneak one more
Said "Baby, when can I see you again? How 'bout every night after this?"
I drive away from your house, chasin' butterflies out
Girl, I don't know how you do it
Roll the radio down, say "I love you" out loud
Man, I think I'm 'bout to lose it
Ain't my thing to jump the gun,
But I called my dad and said "She's the one"
Said "Boy, better get that ring, if you really wanna change her name"
Like a merry-go-round, got my head spinnin' round and round and round That's just what you
do, do, do, do, do, do, do to me
Yea, that's just what you do, do, do, do, do to me Yea, that's just what you do I drive away from
your house, chasin' butterflies out
Girl, I don't know how you do it
Roll the radio down, say "I love you" out loud
Man, I think I'm 'bout to lose it
Ain't my thing to jump the gun,
But I called my dad and said "She's the one"
Said "Boy, better get that ring, if you really wanna change her name"

Like a merry-go-round, got my head spinnin' round and round and round That's just what you
do, do, do, do, do, do, do to me
Yea, that's just what you do, do, do, do, do, do, do to me
