Falling Away (feat. Lights)

Seven Lions

I didn't want to think Cause I knew I was out of my mind You pulled me from the break And brought me to the other sideAnd I Think we're there And IThink we're thereSo goodnight goodnight Don't have to have it all figured out We'll be alright What comes back is gonna come back Tomorrow when we meetJust take me to a place I've never been Find me in the sweetest oblivion Oh. oh We have it all In front of us And I can't see the Sun is up to cover us I'm lifted up Take me to a beautiful day And I feel like our Shadow is falling away Falling away Falling away Falling away Falling away Falling away Falling awaySo goodnight goodnight Don't have to have it all figured out We'll be alright What comes back is gonna come back Tomorrow when we meet Just take me to a place I've never been Find me in the sweetest oblivionWe have it all In front of usAnd I can't see the Sun is up to cover us I'm lifted up Take me to a beautiful day And I feel like our Shadow is falling away Falling away Falling away Falling away Falling away

Falling away Falling away
