

Hypnotize U

N.E.R.D

Just close your eyes let me hypnotize you
I can make your storm feel sky blue
Girl when you're lost you know I'll find you
If I'm not beside you I'm behind you
Imagine you're on the beach and you're lost
You feel the breeze because your clothes off
No inhibitions, you've got nothing to hide
And then help arrives, do you wanna ride? Touch it girl! Touch it girl! Touch it girl! Ahhh!
Touch it girl! Touch it girl! Touch it girl! Ahhh!
Touch it girl! Touch it girl! Touch it girl! Ahhh!
Touch it girl! I'm behind you!
Just close your eyes let me hypnotize you
I can make your storm feel sky blue
Girl when you're lost you know I'll find you
If I'm not beside you I'm inside you I'm your doctor this is your therapy
Your money's no good just take care of me
I found an issue, your muscles are tight
But all that can change, let's get loose tonight Touch it girl! Touch it girl! Touch it girl! Ahhh!
Touch it girl! Touch it girl! Touch it girl! Ahhh!
Touch it girl! Touch it girl! Touch it girl! Ahhh!
Touch it girl! I'm behind you! Just close your eyes let me hypnotize you
I can make your storm feel sky blue
Girl when you're lost you know I'll find you
If I'm not beside you I'm inside you You're a dream, inception, you're my queen
White paint, let me paint that wall
Change it back, girl take that off
In your eyes I can see want we know
I know signs stop lying like Leo
You can stay but there'll be no me
But if you come it'll set you free To the left
To the right
To the left
To the right Go on and touch it girl
Go on and touch it girl
Go on and touch it girl
Go on and touch it girl Let me get close let me hypnotize you
I can make your storm feel sky blue
Girl if you're lost you know I'll find you
If I'm not beside you I'm behind you Just close your eyes let me hypnotize you
I can make your storm feel sky blue
Girl when you're lost you know I'll find you
If I'm not beside you I'm inside you 20? s, 50? s, 5? s, 10? s

20? s, 50? s, 5? s, 10? s
20? s, 50? s, 5? s, 10? s
20? s, 50? s, 5? s, 10? s Just close your eyes let me hypnotize you
I can make your storm feel sky blue
Girl when you're lost you know I'll find you
If I'm not beside you I'm inside you
