

# Take Control

DJ Bobo & Mike Candys

Take control of your mind  
Your body and your soul  
Take control of your mind  
Your body and your soul You take you shake you break I'm not fake  
You cool the way you move no more mistakes  
Can't stand still got the move  
Feel the bassline feel the groove  
The beat the bass the lyrics are fine  
Get on the floor you got no time  
Party people I will give you a chance  
Wave up your hands and feel in trance  
Everybody take a chance waving up your hands  
Can you feel this trance  
Everybody take a chance waving up your hands  
Can you feel this trance  
Take control of your mind  
Your body and your soul  
Take control of your mind  
Your body and your soul  
Can you see now what I'm saying  
The beat is loud and I am playing  
playing with your life playing with your soul  
Here on stage and under my control  
So let the rhythm take you on the floor  
With a bass and a drum that you never heard before  
Open your mind cause I'm talking about dancing  
Open your mind this is not romancing  
Everybody take a chance waving up your hands  
Can you feel this trance  
Everybody take a chance waving up your hands  
Can you feel this trance  
Take control of your mind  
Your body and your soul  
Take control of your mind  
Your body and your soul  
Take control of your mind  
Your body and your soul  
Take control of your mind  
Your body and your soul  
You take you shake you break I'm not fake  
You cool the way you move no more mistakes  
Can't stand still got the move

Feel the bassline feel the groove  
The beat the bass the lyrics are fine  
Get on the floor you got no time  
Party people I will give you a chance  
Wave up your hands and feel in trance  
Everybody take a chance waving up your hands  
Can you feel this trance  
Everybody take a chance waving up your hands  
Can you feel this trance  
Take control of your mind  
Your body and your soul  
Take control of your mind  
Your body and your soul
