

Ladi Dadi (feat. Wynter Gordon)

Steve Aoki

Ooh na na na, dim the lights
So you can't see me
Close your mouth, don't speak
Just feel me Closer we become
Together we'll fold up
And we'll want this night, this night
We give ourselves one night The moon is set, the food is eaten
The time is right for our love misleading A little bit of talk, a little bit of pleasure
A little bit of making out and then we work it out
A little smoky smoke, tell me a dirty joke
Up on your roof, up on your roof
And we don't need nobody, let's have a little party
Just us two, just us two
And we don't need nobody, 'cause we go ladi dadi
Just us two, me and you, me and you Here, a kiss and I'll smile, so softly
We're just friends, but I like you slightly
We won't cross the line, we'll go on a proper date sometime
Just a boy and a girl, just us two in the world The moon is set, the food is eaten
The time is right for our love misleading A little bit of talk, a little bit of pleasure
A little bit of making out and then we work it out
A little smoky smoke, tell me a dirty joke
Up on your roof, up on your roof And we don't need nobody, let's have a little party
Just us two, just us two
And we don't need nobody, 'cause we go ladi dadi
Just us two, me and you, me and you
Take a walk with me
And we'll go dancing in the rain
And baby, we'll run under a tree
I'll look at you, you'll look at me A little bit of talk, a little bit of pleasure
A little bit of making out and then we work it out
A little smoky smoke, tell me a dirty joke
Up on your roof, up on your roof And we don't need nobody, let's have a little party
Just us two, just us two
And we don't need nobody, 'cause we go ladi dadi
Just us two, me and you, me and you
