

# Television (feat. Wais P the Pimp)

Jared Evan & Statik Selektah

There's nothing you could do that will change my mind  
Once we hit play we can't press rewind  
When you're in my television  
When you're in my television oh oh Treat me like a record store  
Listen when you come inside  
You might wanna hit record  
Cause everything we do is live Ain't no standard definition  
My quality's high  
We don't need no electrician  
Our energy's high If there is a rainstorm  
My satellite  
Could always be your guide  
There's nothing you could do that will change my mind  
Once we hit play we can't press rewind  
When you're in my television  
When you're in my television We didn't have to go whip it with your molly  
We poppin' molly snipping whitney acting so crazy  
And everything hazey, stumbling mumbling  
Something about I can't feel my face and mouth  
It's my world, my pimpin, my television  
Programming casting hoes with every huge wagons  
My pants sagging but my shoes so clean  
My team blue flagging but my only color's green  
Cut shooting rep my team looking like a fence  
Go barbwire think I lost my fire  
To the MDMA they bout to send me away  
Jenice jogging, clean popping, drinking vodka all day  
Feeling like its cold veins in my veins  
If what you say makes sense, why am I insane  
Come get high with your maine  
Higher than paper planes making rains our swag's never the same  
There's nothing you could do that will change my mind  
Once we hit play we can't press rewind  
When you're in my television  
When you're in my television Just watch what you never been  
When you step aside the screen you can see what you never been  
I be rappin like a veteran  
Ain't nobody seen a fig like this in the televish  
And I'm in hell in scripts  
Rocking diamonds on D's on my sleeves 'cause it's elegant  
Being a lady getting hella pen  
And when I'm finished swimming in it making them sentences irrelevant If there is a rainstorm

My satellite  
Could always be your guide There's nothing you could do that will change my mind  
Once we hit play we can't press rewind  
When you're in my television  
When you're in my television
