

Last Moment of Clarity (feat. Karina Ware)

BT

Life's a twisted road
we unwind together
clouds uncover our sky
sitting in a couch made of sand
the milky ring around the moon enchants me
i'm swimmin through the tunnels of my mind
the waves of energy splash over my body
Transition from day into night
the euphoria of spinning in the moonlight
open up yourself to what is out there
but don't take off like snowball down a hill
You inspire me to be so crazy
you inspire me to be free
you inspire me to be so crazy
you inspire me to be free
Life's a twisted road that we unwind together
ubiquity of our love is what makes it last forever
You've got to flow like a river
you've got to shine like the sun
you've got to flow like a river
you've got to shine
Pourin through the sky within my mind
and sweeping me away
away away away away...
Tune in the sky
ubiquitous and natural
carry the light
simpatico and simple
Tune in the sky
ubiquitous and natural
carry the light
and take it deeper and deeper inside
Deeper and deeper...
Tune in the sky
ubiquitous and natural
carry the light
and take it deeper and deeper inside
Tune in the sky
ubiquitous and natural
carry the light
and take it deeper and deeper inside
take it deeper and deeper inside

take it deeper and deeper and deeper...
