

Virginia Moon

Foo Fighters

Dearest constellation, heaven surroundin' you
Stay there, soft and blue. Virginia Moon, I'll wait for you
tonight

Sweetest invitation, breaking the day in two
Feelin' like I do, Virginia Moon, I'll wait for you tonight
And now our shades become shadows
in your light

In the morning when we're through and tomorrow rescues you,
I will say goodnight
Secret fascination, whisper a quiet tune
Hear me callin' you, Virginia Moon, I'll wait for you tonight
And now our shades become shadows in your light

In the morning when we're through and tomorrow rescues you,
I will say goodnight
Virginia Moon, I'll wait for you tonight
And now our shades become shadows in your light

In the morning when we're through and tomorrow rescues you,
I will say goodnight
I will say goodnight
I will say goodnight
