One Me and U

All Saints

Time, space all over the place Whenever you're near me I'm here my feelings are clear I've never felt so sure You've changed the way I create I'll go wherever it takes me Pain, tears, lead us to here You bring me so much joy[Chorus:] I don't know what you do But I stagger and fall Trip up in my shoes when I'm walking with you We can fight, make up, whatever the mood 'Cause there's only one me and U Here now is where I see how My feelings can taint me Cold, cool, sometimes misunderstood That's not how I wanna be The cause of pain through all of my shame See I know you'd never waste me Cos love my dear Yes it leads us to hereI don't know what you do But I stagger and fall Trip up in my shoes when I'm walking with you We can fight, make up, whatever the mood 'Cause there's only one me and U[M8] I don't know what you do But I stagger and fall Trip up in my shoes when I'm walking with you We can fight, make up, whatever the mood 'Cause there's only one me and you Song Discussions is protected by U.S. Patent 9401941.
