Wanna Be

The Internet

Early in the morning She's running through my mind again Girl, you got me wondering If we should be more than friendsDo you wanna be? Do you wanna be? Do you wanna be? Don't you wanna be my girl? (Girl) (Girl, girl, girl, girl) My girl, girl Yeah, yeah Every single evening She's telling me about her day My feelings getting creeping I wonder if it's fair to sayDoes she wanna be? Does she wanna be? Does she wanna be? I think she wanna be my girl My girl, oh (girl) DamnI don't know Pretty sure though It's like I think she wants to be (girl, girl, girl) At least I hope she does, shit Girl, yea, ooh oh Ta-da, ta-da I think she wanna be my girl (girl, girl, girl) My girlGirl (girl) Girl (girl) Girl (girl)
