

shedontknowbutsheknows

Tove Lo

[Verse 1]

Hanging by the bar at sunrise

With our bodies talking

Hooked up last week, had a good time

So I regret nothing[Pre-Chorus 1]

I see her come close, ooh

I wonder what you told her to make her stay[Chorus]

She don't know what you did when you come back home

She don't know what you're doin' out all night long

She don't know all the photos you've (got) in your phone

But she knows (she knows, she knows)

She would rather smile and pretend with ya than let go

She don't know what you're doin' out all night long

She don't know all the photos you've (got) in your phone

But she knows (she knows, she knows)

[Verse 2]

Blaming me for all the sadness

Didn't know 'bout you two

Don't see why I'm dragged into it

This whole thing is on you[Pre-Chorus 2]

I see her heart break, ooh

Still she's keeping face

Leave it to me, 'cause, babe[Chorus]

She don't know what you did when you come back home

She don't know what you doin' out all night long

She don't know all the photos you've (got) in your phone

But she knows (she knows, she knows)

She would rather smile and pretend with ya than let go

She don't know what you're doin' out all night long

She don't know all the photos you've (got) in your phone

But she knows (she knows, she knows)

[Bridge]

Don't even bother with your lies

Won't let you see her when she cries

Go on unhappy in the night[Chorus]

She don't know what you did when you come back home

She don't know what you're doin' out all night long

She don't know all the photos you've (got) in your phone

But she knows (she knows, she knows)

She would rather smile and pretend with ya than let go

She don't know what you're doin' out all night long

She don't know all the photos you've (got) in your phone

But she knows (she knows, she knows)
