

Head Down

Soundgarden

I see that smile
I see that smile
I see that smile on your face We hear you cry
We hear you wail
I see that smile on your face We see you laugh
We see you dance
We take that away every day We see you cry
We turn your head
Then we slap your face
Bow down, bow down
Bow down to live your life Head down, head down
Head down hide that smile Head high, head high
Head high you've got to smile Head high, head high
Head high you've got to smile I see you try, I see you fail
Some things will never change We hear you cry, we hear you wail
We steal that smile on your face Bow down, bow down
Bow down to live your life
Head down, head down
Head down hide that smile
Head high, head high
Head high you've got to smile
Head high, head high
Head high like a song you like
