

(You know, just know what I like)'Cause I don't really like anybody
So don't tell me I'm like anybody
'Cause I don't really like anybody
So don't tell me I'm like anybodyIn the town full of fancy cars and
Crowded bars and supermodels
Looks exactly the way it did inside my head
When I dreamed about it
All the things I could live without
I need it now 'cause they're all around me
Only thing that I can't afford is to lose myself
Tryna be somebody, somebodySomebody, somebody, somebody
Somebody
(You know, just know what I like)
Somebody, somebody, somebody
Somebody
(You know, just know what I like)
You can stop tryna be somebody
You can stop tryna be somebody
