

# One Last Dance

R5

Tear drops stain your hazel eyes  
I can't believe I made you cry  
It feels so long since we went wrong  
But you're still on my mind Never meant to break your heart  
Sometimes things just fall apart  
So heres one night to make it right Before we say goodbye So wait up, wait up  
Give me one more chance  
To make up, make up  
I just need one last dance Freshman year I saw your face Now its graduation day  
Said we'd be friends, till the end  
Can we start again?  
So wait up, wait up Give me one more chance  
To make up, make up I just need one last dance  
Na na na na oh-oh  
Na na na na oh-oh  
I heard you're heading east  
So lets just make our peace  
So when you think of me  
You'll smile, and I'll smile  
So wait up, wait up  
Give me one more chance  
To make up, make up  
I just need one last dance  
So wait up, wait up  
Give me one more chance  
Just one song, then I'll move on  
Give me one last dance  
I just need one last dance with you  
Oh-woah
