## **One Last Dance**

## **R5**

Tear drops stain your hazel eyes
I can't believe I made you cry
It feels so long since we went wrong
But you're still on my mindNever meant to break your heart
Sometimes things just fall apart
So heres one night to make it rightBefore we say goodbyeSo wait up, wait up
Give me one more chance
To make up, make up

I just need one last danceFreshman year I saw your faceNow its graduation day Said we'd be friends, till the end

Can we start again?

So wait up, wait upGive me one more chance To make up, make upI just need one last dance

up, make upl just need one Na na na na oh-oh
Na na na na oh-oh
I heard you're heading east
So lets just make our peace
So when you think of me
You'll smile, and I'll smile
So wait up, wait up
Give me one more chance
To make up, make up

I just need one last dance So wait up, wait up Give me one more chance

Just one song, then I'll move on

Give me one last dance I just need one last dance with you

Oh-woah
