

Put Me to Work

Papa

I wanna see the lights
put me to work tonight
the one who money pain I'll work until he rise
this one that would wish it thought would be
Blurred off and swear them blue knew what you need.
I'll be your junkyard dog chasing silhouettes
your shadow boxing champ only without regret.but last we would kiss.
I wanna see the lights
put me to work tonight
I wanna see the lights
put me to work tonight
I wanna see the lights
put me to work tonight
I wanna see the lights
