

# Coming From (feat. J-Dawg & Big Krit)

## Slim Thug

Understand at where I'm coming from  
Live this life in the hardest  
Understand at where I'm coming from This is what the gangster's about  
And bitch nigger's at  
Somebody from your block got. gotta ride  
When the bitches. that's why you can't trust em  
. steal. wanna fuck em  
The block is on fire, them. want you locked  
Even if you pay the hustle they take. what you got  
When neighbors get shot, and it ain't no big deal  
Cause everybody took what he. peel  
It's hard to. we're so used to, live everyday like it's our last  
It's like they. knew it  
. robbing and stealing, hustling and killing  
Serve that, I just might. living with no villain  
Where they. they'd rather be in jail  
They go home and after tell their kids they failed  
. south side of Houston, everybody's. but I love my hood so I put it up on.  
Living life in the hardest, you understand at where I'm coming from I come from the. bottom,  
trains. steal meals  
My. fuck school, they'd rather rock. on wheels  
Babys been having babies like condoms they never made them  
Give them up to their pants cause sure they couldn't raise them  
Let the curtain fall from the laws and the jewish  
It's in the niggers up the creep for selling drugs that. us  
My grandma always used to say.  
. To take us up the.  
. but I got feels do, so pardon me when I'm eat and. you.  
Just let me smoke my weed and drank upon this. But never pour too much cause I try to make it  
last  
Understand at where I'm coming from  
Live this life in the hardest  
Understand at where I'm coming from  
I'm from the home where we need you,  
Where they. away  
. home of the g's, land of the slaves  
Where the good die young and the.  
. on the way to school jump in double blood pools  
. and they. to it, how is this normal?  
When the babies get burned and we used to call that coma  
See where I'm from they will tell us anything  
Like fuck. they just want us.

Yeah man, that's a motherfucking shame  
And every. is the same,  
. get down, and the bricks bitch Understand at where I'm coming from  
Understand at where I'm coming from
