

# Wild Things

Chris Webby

Gather around everyone  
I have something to tell you about the wondrous place  
Over the hill, cross the river, into the dark woods  
Where the wild things are, but be careful  
There are things waiting for you in the woods  
Wild things, there are wild things Have you seen us, we the wild things boy  
With a squad so big fill arenas, that's where you can find me boy  
Got a, battery up on my back like a Mophie  
Spider web emoji up on the trophy, rocking all black like Shinobi  
Weed up in the pouch like a joey, I'm Wile Coyote with  
Kylie and Khloe and Miley and Zoey Saldana, Natasha Leggaro  
Madonna, Kalani and Josie the Pussycats too  
In my Honda we rolling be gone till the morning  
I follow my calling and swallow my fear  
But the doctor been sayin' I lost it, it's clear  
That I just cannot gauge it to small of an ear  
But these voices are calling that's all I can hear  
I am, out here where the wild things be at, biatch  
Hit 'em so quick, can't react, Halloween Town with a crown like Jack  
Fully psycho maniac, he that, shouter with a scream mask  
He O.D. at, killer, ya'll better evac., shhh, quiet, hear that?  
Over where the tree at? That's where you can find me at  
Just follow the way, come and follow the way  
Don't stop on the road, just step farther away, step farther away  
From all that you know, don't get caught in the fray  
Or you could just call it a day, 'cause where we gon' go  
Where the monsters will play, so all I can say Yeah baby you can find me  
Where the wild things are  
Where the wild things are  
Where the wild things are  
Yeah baby you can find me  
Where the wild things are  
Where the wild things are  
Where the wild things are  
I'm where the lions and tigers and bears go  
Places that you wouldn't dare go  
Blaze the trail without hesitation  
Tell me why you waitin' when you scared bro  
I'm not a sane man, strange man  
More like rain man, man (man, man)  
Roll haze till the stone age, I'm a cave man, man  
Whippin' like Mad Max, loud pack in the packs till I cat nap

Then I go and snap back, runnin' through the maze like a lab rat  
Looking for the cheese let me have that  
Maybe you can find me in the dark like a zombie  
Calmly, chillin' at the bar with a blonde  
Jager Bomin' tryna drown out my problems  
But they be swimmin' like they Phelps in the water  
I'm outta order with disorders prescribed  
The orderlies ought to be checkin' my arms that they tied  
They can not restrain me or try to explain to me  
That this is all in my mind  
Mister Babadook right out the comic book  
I got 'em shook and they got nowhere to hide  
Stop and look around, watch it 'cause you now  
All the way out in the wild Just follow the way, come and follow the way  
Don't stop on the road, just step farther away, step farther away  
From all that you know, don't get caught in the fray  
Or you could just call it a day, 'cause where we gon' go  
Where the monsters will play, so all I can say Yeah baby you can find me  
Where the wild things are  
Where the wild things are  
Where the wild things are  
Yeah baby you can find me  
Where the wild things are  
Where the wild things are  
Where the wild things are
