

# Poison Heart

## Depeche Mode

You have poison in you heart  
And I'm sure of it  
I knew right from the start  
From the moment we met  
You know we have to break up  
You'll always be alone You know you've never ever been a friend  
Now we're closer to the edge There's poison in your mind  
Yeah, I'm sure of it  
You've never be that kind  
With all due respect  
You know it's time to break up  
You'll always be alone You know you've never ever been a friend  
Now we're closer to the edge  
We've been walking far too long that I see road  
My broken heart is colder than a stone  
I know you've never ever be my friend  
Now you push me to the edge
