

# These Dreams

Jim Croce

Once we were lovers  
But some how things have changed  
Now we're just lonely people tryin' to forget eachother's names  
Now we're just lonely people tryin' to forget eachother's names What came between us?  
Maybe we were just too young to know  
But now and then I feel the same  
And sometimes at night I think I hear you callin' my name  
Mmm hmm hmm these dreams  
They keep me goin' these days Once we were lovers  
But that was long ago  
We lived together then  
And now we do not even say hello  
We lived together then  
And now we do not even say hello  
What came between us?  
Maybe we were just too young to know  
But now and then I feel the same  
And sometimes at night I think I hear you callin' my name  
Mmm hmm hmm these dreams  
They keep me goin' these days
