

WAR With US

King Von

What?
What?
We started this shit, man
Huh?
We started this shit, for real
Did a lot of dirt myself, dirty
Thirty on me shooting like Steph Curry
Shells get to running and get wet up, huh
Fall on your ass, won't get up, nah
Bitch I get busy with choppers and glizzies
I'm riding through the city this Glock got no safety
Keep that bitch with me so please do not tempt me
I squeeze 'til it's empty, you thinking you crazy
Bad bitch from another country, foreign
Slammed that girl in the pussy, scoring
Figure I'm on to the next, she boring
Finna pull up on her friend, hoes going
Bands on me, money won't fold, damn
Leprechaun,
