

# Take It from Me

## KONGOS

It got a mind of it's own and it say...I woke up  
Don't recognize the bed  
Took me a minute  
To clear my headI try recalling  
But the blanks won't fill  
Camera was rolling  
But I forgot the film  
Take it from me  
When you start it's just a matter of time  
Any minute you will cross that line  
Take it from me  
You never think about the price that you pay  
It got a mind of it's own and it say  
Take it from me  
It got a mind of it's own and it say  
Take it from me  
It got a mind of it's own and it say...  
Take it from me!  
Nothing can stop me  
Nothing holds me back  
Think you can slow me down?  
Knock me off my track?Nothing can stop me  
Nothing holds me back  
Think you can slow me down?  
There ain't no turning back  
It don't take much  
For the beast to bolt  
A split second too late  
To bring it to a halt  
You're hypnotized  
Your feet follow your shoes  
It's kinda like  
A cigarette smoking you  
Take it from meWhen you start it's just a matter of time  
Any minute you will cross that line  
Take it from me  
You never think about the price that you pay  
Take it from me  
It got a mind of it's own and it say  
Take it from me  
It got a mind of it's own and it sayNothing can stop me  
Nothing holds me back

Think you can slow me down?  
Knock me off my track?  
Nothing can stop me  
Nothing holds me back  
Think you can slow me down?  
There ain't no turning back Take it from me  
It got a mind of it's own and it say...  
Nothing can stop me  
Nothing holds me back  
Think you can slow me down?  
There ain't no turning back  
Woo, woo  
Take it from me  
Woo  
Take it from me!
