

Men In Black

Frank Black

You believe it, you better
I got their number
Classic camcorder
I saw everything Dinner plate specials
The shapes of cucumber
I'm going to the papers
I am going to sing In the cool, cool night
And in the middle of the day I'm watching my back
I'm waiting my visitation
From the men in black
Are they grey or is it my ommission?
I'm watching my back
I'm waiting my visitation
From the men in black
Are they grey or is it my ommission? It's been a good year
It's been a good summer
I wait for the door
Or that phone to ring In the cool, cool night
And in the middle of the day I'm watching my back
I'm waiting my visitation
From the men in black
Are they grey or is it my ommission? Our little race
I don't want to fail
So just in case, I made you a copy
And I put it in the mail
You believe it
I got their number
Classic camcorder
I saw everything I'm watching my back
I'm waiting my visitation
From the men in black
Are they grey or is it my ommission? I'm watching my back, huh
I'm waiting my visitation
From the men in black
Are they grey or is it my ommission? I'm watching my back, huh
I'm waiting my visitation
From the men in black
Are they grey or is it my ommission?
