

# Sanctuary

## Cavalera Conspiracy

Loaded with dynamite  
I don't give a fuck 'cause  
Everybody die tonight  
Call me negative  
Call me what you want  
You are nothing  
Never was... never willMy hostility  
My sanctuary  
My reality  
My sanctuary... underground  
Coming with the storm  
You wish you were never born  
Fucked up reality  
I'll take your soul and plant my seedMy hostility  
My sanctuary  
My reality  
My sanctuary... undergroundNo excuses, no regrets  
Everybody die tonight  
Everybody die tonight  
No divisions, no turning back  
Everybody die tonight  
Everybody die tonightSanctuary, sanctuary  
Everybody die tonight  
Everybody die tonight...
