

# One More Time (feat. Chante Moore)

Kenny G

I lie half awake  
Late at night  
I reach out to touch you  
To feel you by my side  
And I reach  
And I reach  
But I never get to feel you  
Will I ever get to feel you again?  
Again...  
Just one more time  
One more moment  
To take you in my arms  
One more chance  
One more kiss  
Before I wake to find you gone  
One more time  
Before I have to face another day  
And my heart breaks... againIt's only a dream  
But it's also real  
I don't want it to end  
But I know it will  
So I pray and I pray  
Every night I'm on my knees  
Begging for the chance to see you again  
Again'  
Just one more time  
One more moment  
To take you in my arms  
One more chance  
One more kiss  
Before I wake to find you gone  
One more time  
Before I have to face another day  
And my heart breaks... again  
Again...
