## Let Me Love the Lonely

## **James Arthur**

You laugh at all the jokes Even the ones you know Funny I'm doing that, too I love the crowded room The one string that's out of tune Trust me, I feel like I doLet me love the lonely out of you Let me love the pain you're going through I think I've saved myself by saving you Let me love the lonely out of you Lighthouse without the lights You smile without your eyes I know, coz I do that too Your own worst enemy You think that no one sees I do, coz I'm like that tooLet me love the lonely out of you Let me love the pain you're going through I think I've saved myself by saving you Let me love the lonely out of youWe can light a fire to moments Coz what is much to cold to see the love?Let me love the lonely out of you Let me love the pain you're going through I think I've saved myself by saving you Let me love the lonely out of you Let me love the lonely out of you Let me love the pain you're going through I think I've saved myself by saving you Let me love the lonely out of you Song Discussions is protected by U.S. Patent 9401941.
