

Waiting (feat. Rochelle)

Yellow Claw

[Verse 1]

I don't need no words when I, when I said
"Love, I need you here right now," is what you said
The colors of your vibe let my soul on fire
So let's not just stand here and waste anymore time
Let's come together underneath the dark skies
I love you forever, we won't let it die
So let's not just stand here and waste anymore time, more time [Chorus]

I'm ready for your love
I've been waiting and waiting
I'm ready for your love
I've been waiting and waiting
I'm ready for your love
I've been waiting and waiting
I'm ready for your love
I've been waiting and waiting
I'm ready for your-- [Verse 2]

I believed in love before, 'fore I came
And I'll giving you my word when I, when I stay
Never leave your side, you open my mind
Oh-oh, yeah

[Chorus]

I'm ready for your love
I've been waiting and waiting
I'm ready for your love
I've been waiting and waiting
I'm ready for your love
I've been waiting and waiting
I'm ready for your love
I've been waiting and waiting
I'm ready for your--
