

# Triangular Square

## In Trance 95

It's following me where I'm going  
The same thought of not knowing  
It's haunting me every morning  
I can't explain where we're going Better walk  
Very slow  
When we go  
Always go It's following me where I'm going  
Stalking me as I'm walking  
When I go  
Where I go  
I can't explain why they're hiding  
The same things we are not knowing  
From all the times we were glowing  
Long ago I can't explain where we're going  
All of my friends they don't know me  
But I try to be loved  
It's following me where I'm going  
The same thought of not knowing  
When I go  
Where I'll go Triangular square like this drawing  
I don't know
