

Whip It! (feat. Chloe Angelides)

LunchMoney Lewis

We can go all night
So don't be shy
I'm 'bout to blow your mind
Come on baby
Whip it one more time
Just hold on tight
Gon be a bumpy ride Come on baby whip it
So let it whip
Child
Let it whip
(And whip it, and whip it)
No time to trip
Child So move your hips
One, two, three, four
You ain't never heard nothin' like this before
Bruce Lee room and I got the glow
Got hands in the air when I'm at the show
Black wow got that body woah
I love when you're movin slow
I love when you take it low
Real girls get down on the floor
You know I whip it real good
Whip it, whip it real good
Front day back to your hood
She know I got the good wood
Hop in cause the car ain't runnin And you can't see me cause the window tinted
Anything you want, girl go get it
Cause the card master P ain't got no limit
So let it whip
Child
Let it whip
(And whip it, and whip it) No time to trip
Child
So move your hips Move your hips
We can go all night
Don't be shy
I'm about to blow your mind Come on baby
Whip it one more time
Hold on tight
Gon be a bumpy ride Come on baby, whip it
Hit my phone when you lonely
Said you got some things to show me

Give it to you how you want it
Then it's cheese, eggs in the morning
You got, a smile that's hard to miss
With a booty so fat make it hard to sit
I got bands like a parliament
Treat your body like a brick, it ain't hard to flip
I Whip it real good, whip it whip it real good
Your man can't do it like I could
Leave that boy missing like big foot
Jump in we about to take off and the room is so clean
But the leather so soft let your head down and cool got no top
The party don't stop we do what
we want
So let it whip
Child
Let it whip
(And whip it, and whip it)
No time to trip child
So move your hips
Move your hips
We can go all night
Don't be shy
I'm about to blow your mind
Come on baby
Whip it one more time
Hold on tight
Gon be a bumpy ride
Come on baby, whip it
Dance - get low
Make it bounce, bounce
Put your hands on your knees, while you working it out
Bounce, make it bounce, bounce
Put your hands on your knees, while you working it out
And make it bounce, bounce, bounce
Put your hands on your knees, while you working it out
Make it bounce (like a basket ball), bounce, bounce
Put your hands on your knees, while you
working it out
We can go all night
Don't be shy
I'm about to blow your mind
Come on baby
Whip it one more time
Hold on tight
Gon be a bumpy ride
Come on baby, whip it
So let it whip
Child
Let it whip
(And whip it, and whip it)
No time to trip child
So move your hips
Move your hips
We can go all night
Don't be shy
I'm about to blow your mind
Come on baby
Whip it one more time
Hold on tight

Gon be a bumpy ride
Come on baby, whip it
Come on baby, whip it
