

Animal Races

Cool Ghouls

I got a hand in my back pocket, always hidden from my view
Ask a question and be rewarded with the things it takes from you
And the wheel spins on, and the wheel spins on
And it goes, and it goes, and it rolls, and it rolls
For the animal races, the animal races, the animal races
The animal races, the animal races, the animal races I'm awaking, watching something, paid by
people not amused
Sifting through the ideas of history, people win and people lose
And the race is on, and the race is on
And it goes, and it goes, and it rolls, and it rolls
For the animal races, the animal races, the animal races
The animal races, the animal races, the animal races
