

# EGO

Gia Woods

Up and down like a roller coaster  
Shut me out, then you say come over  
Call it off too many times for closure  
Call it off too many times and now it's  
Running round my head  
Insecurity  
Tangled in my bed  
When you're in my sheets  
All the shit you said  
Show up in my dreams  
Get the best of me  
My ego  
Loves to rough it up with your ego  
Throwin' uppercuts to get equal  
That's just how it goes  
You want love and control but you can't have both  
'Cause egos  
Always gonna make us act crazy  
Guess I'm gonna love you 'til you hate me  
That's just how it goes  
You want love and control but you can't have, can't have both  
Dancing round all the same old  
problems  
Call 'em out but we still don't stop 'em  
Every night find a way to top 'em  
Every night find a way to have 'em  
Running round the room  
Insecurity  
What I feel for you  
Starts to worry me  
All the shit you do  
Show up in my dreams  
Get the best of me  
My ego  
Loves to rough it up with your ego  
Throwin' uppercuts to get equal  
That's just how it goes  
You want love and control but you can't have both  
'Cause egos  
Always gonna make us act crazy  
Guess I'm gonna love you 'til you hate me  
That's just how it goes  
You want love and control but you can't have, can't have both  
Running round my head  
Insecurity  
Tangled in my bed

When you're in my sheets  
All the shit you do  
Show up in my dreams  
Get the best of me My ego  
Loves to rough it up with your ego  
Throwin' uppercuts to get equal  
That's just how it goes  
You want love and control but you can't have both  
'Cause egos  
Always gonna make us act crazy  
Guess I'm gonna love you 'til you hate me  
That's just how it goes  
You want love and control but you can't have, can't have both
