

# Love 2012

## 3OH!3

Flash, flash, television  
Give me a new religion  
Fast, fast laser beams  
Dreams of robotic screens Dance, dance while you can  
This is your last chance  
Bang, bang, shoot 'em up  
This is love 2012 I'll be the one who takes all the blame  
Going down, down in flames  
You'll be the one who forgets my name  
Play me, playing that game This is me, I love myself  
Yeah, fuck everyone else  
I don't need nobody's help  
'Cause this is love 2012  
Up, up on the screen  
I got a new disease  
Cha-ching for your soul  
Everything must go Kiss, kiss on the lips  
Of the apocalypse  
Ring, ring, burn the cell  
This is love 2012 Don't run away from what you did  
I know, know what you said  
I've been living with the mess we made  
Get out, out of this maze This is me, I love myself  
Yeah, fuck everyone else  
I don't need nobody's help  
'Cause this is love 2012  
This is the dawning of personal belonging  
With sirens and violins  
The sky above is fallin'  
This is the eve of 'I don't believe' That's all we got in common  
The sky above is fallin'  
The sky above is fallin'  
The sky above is fallin'
