

# Mama

## Trina

Mama I wanna thank you  
For sharing your blessings upon me  
Taking time to understand the lady I wanna be  
Yes mama  
Mama I wanna thank you  
For sharing your blessings upon me  
Taking time to understand the lady I wanna be  
This cold world had me num the pain like  
novacaine  
Till mama sat me down unfold the gate  
Showed me the straight path through the narrow lane  
Sunshine after rain the joy of pain  
Mama you raised a good girl dont worry  
You used to say take it slow trina dont hurry  
Use to tuck me in with the bedtime story  
Now I grown up and you still there for me  
My shoulder to lean on  
You kept my dreams goin  
I owe it all to you me now I got the green flowing  
And im gon always be yo baby  
And I cant never repay you for all the things that you gave me  
You raised me to be a lady  
And you scoot me to the game so them niggas couldnt play me  
You was more than a mother you was a friend  
The greatest love of all comes from within  
I know ill never kknow love like this again  
And beneath my wings you was the wind  
I love you like none other  
Cause you can only live your whole life but only get one mother  
Being there for me through the  
thick and thin  
More than a mother your my best friend  
Look within and take yo place  
Sometimes I wanna run to ya  
Through the ups and downs I know I can still come to ya  
I think bout the things I done to ya  
But through all the drama I know I'm still number one to ya  
Uh, look at how far you brought me  
All the things you have taught me  
Money couldnt bought me  
You never wanted us to make the same mistakes  
When the game got high and they raised the stakes  
You was still in my corner to press the brace  
Till I'm ready in yo arms you kept me safe  
Through the thick and thin im gon be there for ya  
I say a prayer for ya

Lord knows I care for ya  
Through hard times we got strong or mother to daughter  
When I was weak you was my bridge over trouble water  
Can't nobody replace you  
I'm forever faithful  
For you mama im grateful  
Your baby girl is a reflection of you  
I thank the lord up above cause he blessed me with you, uh  
I love you like none other  
Cause you can live your whole life but you can only get one mother  
(yes mama)  
mama I wanna thank you  
For sharing your blessings upon me (oh mama)  
Taking time to understand  
The lady I wanna be (keep reapeing till fades out)
