

# I See It Now

Tracy Lawrence

It's good to see your face again  
It's been a while  
How am I doing?  
Well I get by somehow  
You sure look good  
Since your new love  
Came in your life  
No I didn't see that fire in you  
He's found  
Oh but I can see it now  
Oh I never saw  
That look in your eyes  
And I never had  
You hold me that tight  
And I never saw  
You dance with your feet off the ground  
Oh but I see it now Holding him you've never looked more beautiful  
Lettin go has been so hard on me  
And sittin here it's clear to see  
What he means to you  
The way you look at him  
It ain't no mystery  
He's all I couldn't be  
OOh I never saw that look in your eyes  
And I never had you hold me that tight  
And I never saw  
You dance with your feet off the ground  
Oh but I see it now And I never saw  
You dance with your feet off the ground  
Oh but I see it now
