## Kehlani

As a women  
When you are broken  
You make the choice to stay down or go and  
Find something to bring you back  
To get you right, get you right on track  
Cause I I I I was chosen  
He found me in the perfect moment  
Found my lows and made them highs  
So much storms he cleared my skies  
I don't think I can deny  
He makes me feel wanted  
Like no one has before  
He don't want nothing from it  
But to know my loves for sure  
I'd hate to be you watching him love me  
I'd hate to be you watching him touch me  
Now I am blessed to have what I need  
Nothing compares he is all I see, yeah  
When I loved you, I didn't love me  
You were this dark cloud hanging above me  
Got all my girls like  
"Nami where'd you go? you've begun to slip away  
into where no body knows"  
Oh I I I I'm doing better  
I've brushed myself off, changed the weather  
Like it's sunny its so warm  
And for once I feel adored  
Oh I could not ask for more  
He makes me feel wanted  
Like no one has before  
He don't want nothing from it  
But to know my loves for sure  
I'd hate to be you watching him love me  
I'd hate to be you watching him touch me  
Now I am blessed to have what I need  
Nothing compares he is all I see, yeah
