

# My Club

## The Asteroids Galaxy Tour

Parala parala paralyse me  
Every single bone in my body feel free  
Boy what you want from  
Boy what you want from  
Boy what you want from me  
Said it one  
Get it one  
Got it in the night  
Coming into me like a parasite  
Why won't you let me  
Why won't you let me be  
You keep on banging my door  
You keep on asking for more  
Oh boy how could I have now  
Let you break through my window  
And into my club  
Like you run this town  
You turned it up  
And then we get down down down  
Right into my club  
Like you run this town  
You turned it up  
And then we get down down  
We get down down down  
Boy we get down down down down dededown  
Anyhow animal  
Tell me what's your name  
Tell me about you like you got no shame  
I got my eyes on  
I got my eyes on  
I got my eyes on you  
Give me??  
Give me what I need  
Build it up, shout it like a symphony  
Do you what you want boy  
Do what you want with me  
Tonight I'll be the bullet in your gun  
Tonight go shoot me higher then the sun  
Tonight you shoot me up  
You do what you boy  
Do what you want with me  
You keep on banging my door

You keep on asking for more  
Oh boy how could I have now  
Let you break through my window  
And into my club  
Like you run this town  
You turned it up  
And then we get down down down  
Right into my club  
Like you run this town  
You turned it up  
And then we get down down  
We get down down down  
Boy we get down down down  
We get down down down  
Boy we get down down down  
We get down down down down dededown  
I get up now  
I get up now  
You're breaking in  
You're breaking in  
Right into my club  
Like you run this town  
You turned it up  
And then we get down down  
Right into my club  
Like you run this town  
You turned it up  
And then we get down down  
We get down down down  
We get down down down down dededown
