

# Just for a Moment

Olivia Rodrigo & Joshua Bassett

I fell in love with the only girl  
Who knows what I'm about  
I fell in love with a boy And I can't tell if I fell out After all said and done  
I can't just pretend I'm movin' on  
Is it just a part we're playing?  
'Cause it don't feel like we're faking When we're underneath the lights  
My heart's no longer broken  
For a moment  
Just for a moment  
When we're singing side by side  
There's so much left unspoken  
For a moment  
Just for a moment  
A moment in love (Just for a moment)  
A moment in love (Just for a moment)  
But is a moment enough? Way, way back then  
Always dreamed it's you and me until the end  
Now, we can't play pretend  
And I'm scared to talk to my best friend Should I stay or let you go?  
Will you love me when the curtains close?  
Is it just a part we're playing?  
'Cause it don't feel like we're faking When we're underneath the lights  
My heart's no longer broken  
For a moment  
Just for a moment  
When we're singing side by side  
There's so much left unspoken  
For a moment  
Just for a moment  
A moment in love (Just for a moment)  
A moment in love (Just for a moment)  
But is a moment enough? Maybe  
Your heart still stops when you see me  
Maybe it's worth another try  
Better place, better time When we're underneath the lights  
My heart's no longer broken  
For a moment  
Just for a moment (Just for a moment)  
When we're singing side by side  
There's so much left unspoken  
For a moment  
Just for a moment A moment in love (Just for a moment)

A moment in love (Just for a moment)  
But is a moment enough? When we're underneath the lights  
My heart's no longer broken  
For a moment  
Just for a moment
