

# Violence Fetish

## Disturbed

Bring the violence, it's significant to the life  
If you've ever known anyone  
Bring the violence, it's significant to the life  
Can you feel it?  
How do you sleep when you live with your lies  
Out of your mouth, up from your mind  
That kind of thinking starts a chain reaction  
You are my timebomb ticking away  
You need to release what you're feeling inside  
Let out the beast that you're trying to hide  
Step right up and be a part of the action  
Go, get your game face on because it's time to play  
You're pushing and fighting your way  
You're ripping it up  
Bring the violence, it's significant to the life  
If you've ever known anyone  
Bring the violence, it's significant to the life  
Can you feel it?  
Bring the violence, it's significant to the life  
If you've ever known anyone  
Bring the violence, it's significant to the life  
Can you feel it?  
How do you live without playing the game  
Sit on the side and expect to keep sane  
Step right up and be a part of the action  
Come get a piece of it before it's too late  
Take a look around, you can't deny what you see  
We're living in a violent society  
Well, my brother let me show you a better way  
Get your game face on because it's time to play  
You're pushing and fighting your way  
You're ripping it up  
Bring the violence, it's significant to the life  
If you've ever known anyone  
Bring the violence, it's significant to the life  
Can you feel it?  
Bring the violence, it's significant to the life  
If you've ever known anyone  
Bring the violence, it's significant to the life  
Can you feel it?  
Tell me what am I supposed to be  
Another goddamn drone  
Tell me what am I supposed to be  
Should I leave it on the inside  
Tell me what am I supposed to be  
Another goddamn drone

Tell me what am I supposed to be  
Shouldn't I get ready to play You're pushing and fighting your way  
You're ripping it up

Bring the violence, it's significant to the life

If you've ever known anyone

Bring the violence, it's significant to the life

Can you feel it?

Bring the violence, it's significant to the life

If you've ever known anyone

Bring the violence, it's significant to the life

Can you feel it?
