

Young Love

Jesse McCartney

We've been together a minute
Seen couples come and go
When people ask how we did it
I flash a picture of you Cause lookin' at you, it still feels like the day I met you
Lookin' at you, I'm still weak in the knees Young love, girl, I'm still drooling like a baby
Young love, it feels like I'm seventeen
So what if we're older than we're acting lately
Young love is all that we'll ever be
So hit the lights, crack the wine, baby lock the door
Slippin' out of our clothes, throw 'em on the floor
Dirty dancin' to our song on the radio
Young love, (hey!) is all that we'll ever be
You've always been something different
A cut above the rest
My number one with a bullet
You hit me right in the chest Cause lookin' at you, it still feels like the day I met you
Lookin' at you, still knocks me off my feet Young love, girl, I'm still drooling like a baby
Young love, it feels like I'm seventeen
So what if we're older than we're acting lately
Young is all that we'll never be
So hit the lights, crack the wine, baby lock the door Slippin' out of our clothes, throw 'em on the
floor
Dirty dancin' to our song on the radio
Young love, (hey!) is all that we'll ever be
And we both know that
we'll never find another (no)
That'll ever compare to you and me
Cause with you it's like the fun is never over (hey)
Forever young we will be
Young love
Young love (oooh, oooh, oooh, oooh, oooh, oooh) Young love, girl I'm still drooling like a baby
Young love, it feels like I'm seventeen
So what if we're older than we're acting lately
Young love is all that we'll ever be
So hit the lights, crack the wine, baby lock the door
Slippin' out of our clothes, throw 'em on the floor
Dirty dancin' to our song on the radio
Young love, (hey!) is all that we'll ever be.
