

# Black Jesus + Amen Fashion

## Lady Gaga

Black, black, black  
Black, black, black  
Black, black, black Jesus is the new black  
Jesus is the new black  
Jesus is the new black  
Jesus is the new black, aow! I grew up in New York City  
Since I was born on Broadway, baby!  
Moved downtown when I was just nineteen  
To start a new life on the New York scene There's no way I could be stopped  
Was taking my best shot  
I had a better plan  
There's no way I could be stopped  
Was coming for your spot  
I meet a better man  
Amen, on the runway  
Dressed in his best  
Amen Fashion, on the runway  
Work it! Black Jesus  
Amen, on the runway  
Dressed in his best  
Amen Fashion, on the runway  
Work it! Black Jesus Dancing in my revelation  
Underground pop civilization  
Concrete poetry to feed my mind  
Old symbolism was left behind There's no way I could be stopped  
Was taking my best shot  
I had a better plan  
There's no way I could be stopped  
Was coming for your spot  
I meet a better man  
Amen, on the runway  
Dressed in his best  
Amen Fashion, on the runway  
Work it! Black Jesus  
Amen, on the runway  
Dressed in his best  
Amen Fashion, on the runway  
Work it! Black Jesus Put it on  
A-Amen Fashion  
Celebrate, uh uh!  
A new compassion Put it on
