

# Judy Garland

## Craig Cardiff

I keep recalling us at the airport  
We were saying good night for the very last time  
Me, I managed a smile just to make you nervous  
Oh, hey, you, you're never mine And every song sounds like a love song  
And every kiss feels like your first  
And I know I'm always losing you  
From better than bad and back to worse Hey, I never told you that you're my Judy Garland  
Myself, I am your cyclone  
Oh I love the idea of loving an idea  
I call out to Kansas but you're never home  
And every song sounds like a love song  
And every kiss feels like your first  
And I know I'm always losing you  
From better than bad and back to worse
