

Just Say It out Loud (feat. NeiNei)

Gamma Skies

I wanna close my eyes and go back
Play it in my mind
A movie of us two, yeah
We were happy at the time
Can't remember what it felt like
We used to be so strong
That picture perfect sky now
It looks so grey and cold
We've been laying here since 4am and you
Haven't said a word to me
Silence written is this what it feels
Like when you hide and seek when it bleeds
If it's over, just say it out loud
Say those words, go and just shout it out
Just be honest, be a man right now
Say it's over, if it's over
Do you remember when we went to Paris into lie
Got stuck out in the rain
But we danced around and didn't mind it
So young and reckless, baby you and I
Fit just like a glove, but I guess that's over now
We've been laying here since 4AM and you
Haven't said a word to me
Silence written is this what it feels
Like when you hide and seek when it bleeds
If it's over, just say it out loud
Say those words, go and just shout it out
Just be honest, be a man right now
Say it's over, if it's over
If it's over, just say it out loud
Say those words, go and just shout it out
Just be honest, be a man right now
Say it's over, if it's over
We've been laying here since 4AM
Silence written is this what it feels like
If it's over just say it out loud
Say those words, go and just shout it out
Just be honest, be a man right now
Say it's over, if it's over
